

ASSIGNMENT – 4

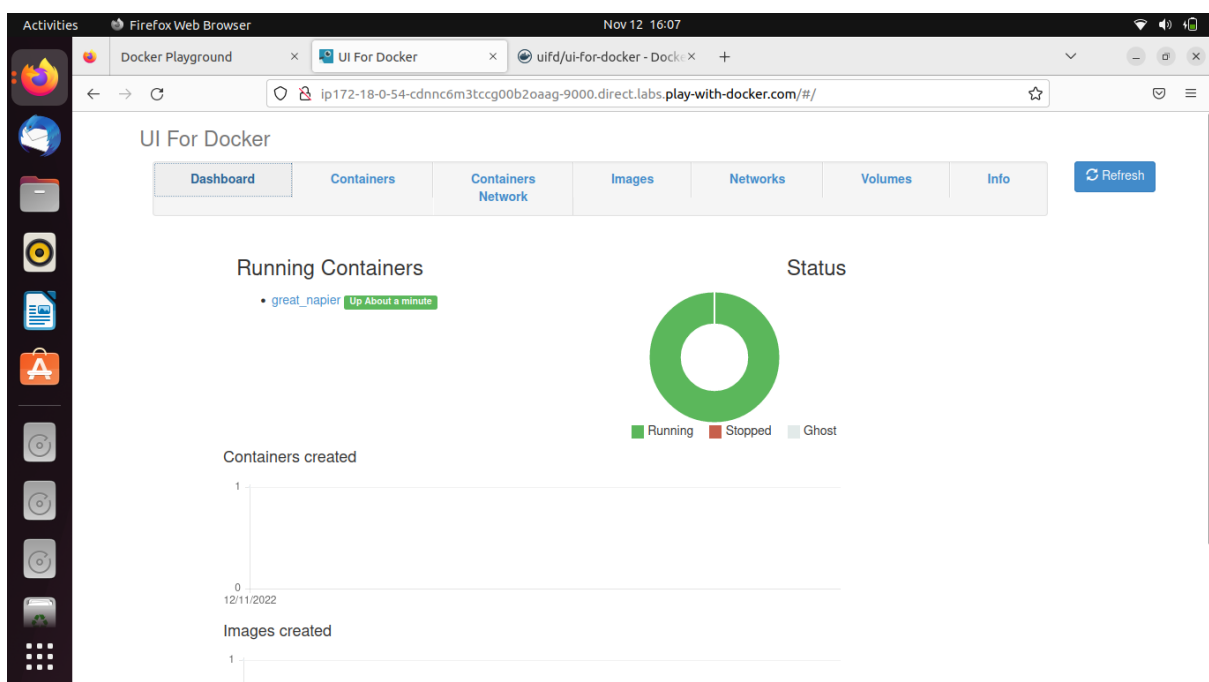

Student name	Santhosh S
Student Roll number	311519104051
Student team ID	PNT2022TMID27815

1.Pull an Image from docker hub and run it in docker playground.

The screenshot shows the Docker Playground interface in a Firefox browser. The left sidebar displays a timer at 03:56:10, a 'CLOSE SESSION' button, and a list of instances with one instance named 'node1' at IP 192.168.0.8. The main panel shows the instance details for 'cdnnc6m3_cdnncbe3tccg00b2oabg' with IP 192.168.0.8, memory usage of 1.57%, and CPU usage of 0.41%. Below this, a terminal window shows the following commands and output:

```
#####
(node1) (local) root@192.168.0.8 ~
$ docker pull uifd/ui-for-docker~
invalid reference format
(node1) (local) root@192.168.0.8 ~
$ docker pull uifd/ui-for-docker
Using default tag: latest
latest: Pulling from uifd/ui-for-docker
841194d080c8: Pull complete
Digest: sha256:fe371ff5a69549269b24073a5ab1244d34c0b834cbadf244870572150b1cb749
Status: Downloaded newer image for uifd/ui-for-docker:latest

$ docker run -d -p 9000:9000 --privileged -v /var/run/docker.sock:/var/run/docker.sock uifd/ui-for-docke
r
aed4fbaef42590eb0bb6ae33a6eadb191e787b8595e90e78dada406b360df70
(node1) (local) root@192.168.0.8 ~
$
```

The screenshot shows the 'UI For Docker' dashboard in a Firefox browser. The top navigation bar includes links for Dashboard, Containers, Containers Network, Images, Networks, Volumes, and Info, along with a 'Refresh' button. The main content area is divided into two sections: 'Running Containers' and 'Status'. The 'Running Containers' section shows a single container named 'great_napiet' with a status of 'Up About a minute'. The 'Status' section features a donut chart showing the status of containers: Running (green), Stopped (red), and Ghost (grey). Below the charts, there are two line graphs: 'Containers created' and 'Images created', both showing a count of 1 on the y-axis and a date of 12/11/2022 on the x-axis.

2. Create a docker file for the jobportal application and deploy it in Docker desktop application.

Dockerfile:

FROM python:3.6

WORKDIR /app

ADD . /app

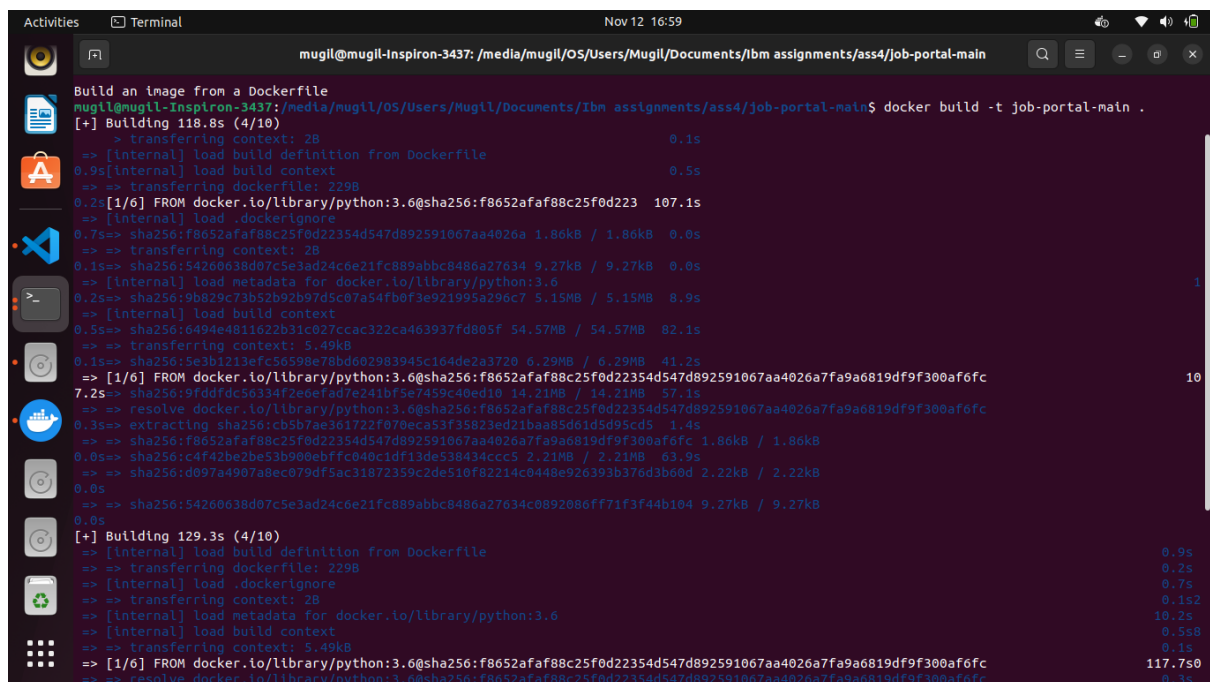

COPY requirements.txt /app

RUN python3 -m pip install -r requirements.txt

RUN python3 -m pip install ibm_db

EXPOSE 5000

CMD ["python", "app.py"]

The screenshot shows a terminal window with the following content:

```
Nov 12 16:59
mugil@mugil-Inspiron-3437: /media/mugil/OS/Users/Mugil/Documents/IBM assignments/ass4/job-portal-main$ docker build -t job-portal-main .
